

The Raised Garden Bed that means

'No More Bending Over!'

AUSTRALIAN
MADE

UP
FARM

- Suitable for areas with limited space.
- Not permanent, ideal for renters.
- Durable galvanised steel with an attractive powder coat finish.
- Comes flat pack, requires cordless drill to assemble.

UpFarm was developed to meet a growing number of enquiries for a planter box that was accessible for people who are not able to garden at ground level, or who have limited space in which to have a garden.

UpFarm is ideal for the elderly or disabled gardener, gardening in schools, hospitals or retirement homes, or if you are just short on space and need a compact gardening solution.

Castor Pack

The castor pack has everything needed to make your UpFarm mobile. Smooth action castors simply bolt to the bottom of your UpFarm. *Suitable for UpFarm Deluxe only.*

Drainage System

Excess water that falls through the base tray is collected in UpFarm's unique slide out drainage channel, and falls from a single hole at the end. By simply placing a bucket or watering can under the hole, run-o water can be collected and re-used.
